PRESIDENT'S DAY.

THE BIG EVENT AT THE EXPOSITION.

Splendid Reception Accorded the Chief Magistrate and the Members of His Retinue on the Day of His Visit.

Charleston, April 10.—The observance of President's Day at the Exposition yesterday marked the most interesting and important feature of the entire Exposition season. The chief executive of the nation was greeted in the most southern of all the Southern States with a cordiality, a hospitality and an enthusiasm that absolutely left nothing to be desired or wished for.

The sentiments exhibited by this fine assemblage of Carolinians were fully met and reciprocated by President Roosevelt. During the whole course of the continuous ovation, which may literally be said to have attended his movements during the visit, he was continually bowing and smiling and raising his hat in recognition of the tumultuous plaudits of those whom he proudly called his fellow citizens. His keen appreciation was plainly shown by the cordiality of his manner, and the whole-souled character of the man stirred the people to a high degree of enthusiastic admiration.

AN INSPIRING SIGHT.

The parade from the St. John Hotel to the Exposition grounds was probably the most imposing ever seen in South Carolina. It was composed of representatives of the army and navy, cavalry, artillery and infantry, with several fine bands. It was indeed a fine thing to behold the head of the nation, escorted by the serried ranks of physical force with glittering bayonets and clanking sabres, marching to the inspiring strains of martial and patriotic music through the streets of a peaceful, hospitable and country-loving city, lined from end to end with cheering thousands of the citizens of the republic to view the great exhibition of the wealth, resources, skill, intelligence, civilization and material prosperity of the country.

A VERITABLE LOVE FEAST.

The speaking in the auditorium was a veritable love feast. President Wagener of the Exposition Company, Governor McSweeney, Governor Aycock of North Carolina, Mayor Smyth and President Roosevelt spoke, exchanging noble sentiments of patriotism and good will. This was followed by a short but beautiful address by Ex-Governor Hugh S. Thompson as he handed the magnificent sword to the president to be presented to Major Mich Jenkins. The sword presentation itself aroused the great assemblage to the

AWFUL ULCERS

Facial Sores and Blotches a Sign of Blood Disease.

Such Troubles Cured by Vinol.

The face that is blotched or covered with unsightly pimples is not only a source of mortification and annoyance but is dangerous.

Where such a condition exists there must be something radically wrong.

When such eruptions become worse and give place to ulcers the danger is, of course, enhanced. Ulcers frequently form first on any of the great vital organs, especially the stomach.

Won't you, if you suffer from any such blood impurities give us the opportunity of telling you how you can get rid of such ills safely and quickly. Our Vinol will help you.

This, we firmly believe, and the reason for our belief is that we have learned that Vinol in its strength does as much in the way of purifying the blood as it does in creating new, healthy flesh tissue. In making the body strong and healthy it invigorates everyone of the great vital organs and enables them to properly perform their work.

Impurities of the blood are thus more quickly displaced by new health elements that are taken by the stomach from the food which by means of Vinol is fully assimilated.

"I wish to say a few words in praise of Vinol. For over a year I was severely troubled with ulcerated stomach which caused me much pain; for three months I could not eat any solid food. I became weak, tired and all run down and lost much flesh. Hearing of the great merit of Vinol, I bought a bottle, and after giving it a good trial, I feel better in every way, and must give all the praise to Vinol." MARY E. BRYANT, 21 Prescott Street, Mansfield, Ohio.

Remember our faith in Vinol is so strong that we sell it on a guarantee and will gladly refund to anyone the cost of the remedy who is not satisfied with the results obtained by its use.

W. E. Pelham & Son DRUGGISTS.

AN OLD SORE

months of diligent and faithful use of external remedies that the place remains as defiant, angry and offensive as ever. Every chronic sore, no matter on what part of the body it comes, is an evidence of some previous constitutional or organic trouble, and that the drugs of these diseases remain in the system; or, it may be that some long hidden poison—perhaps Cancer—has come to the surface and begun its destructive work.

The blood must be purified before the sore will fill up with healthy flesh and the skin regains its natural color. It is through the circulation that the fluids are carried to the sore or ulcer and irritated and inflamed. S. S. S. will purify and invigorate the stagnant blood when all sediment and other hurtful materials are washed out, fresh rich blood is carried to the diseased parts, new tissues form, and the decaying flesh begins to have a healthy and natural look; the discharge ceases and the sore heals.

Several years ago, my wife had a severe sore leg and was treated by the best physicians but received no benefit. Our druggist advised her to try S. S. S. which she did. Fourteen bottles cured her and she has been well ever since.

greatest enthusiasm and was a fitting climax to the events of the day. Governor Aycock made a most happy speech in his usual eloquent style which greatly pleased both the people and the president, the latter frequently giving way to vigorous demonstrations of approval and amusement as the talented North Carolinian stated the attitude of the Southern people toward the problems of the past or neatly turned a witty saying.

PRESIDENT ROOSEVELT.

President Roosevelt spoke for about 30 minutes and was listened to with the utmost attention. He held a manuscript in his hand but referred to it only occasionally. He is not what would be called an orator, but is a most pleasing speaker. He possesses a clear penetrating voice and enunciates with much preciseness and energy. He talks with extreme earnestness and accompanies his words by facial gestures of great emphasis and strength. He has a trim, stocky figure and moves about with much agility and manly grace. His manner is easy and natural and while not studied is at times extremely dramatic. He wore a black frock coat, closely buttoned, and grey trousers with the usual silk hat. His pictures do not give a clear idea of how he looks. It is necessary to see the man in motion to fully appreciate him.

TILLMAN WILL SPEAK IN MANNING

Senior Senator Will invade the Baltimore of McLaughlin's Dear Friend—Will the Fish Fly?

[Special to The State.]

Manning, April 14.—This telegram was received here yesterday: Washington, D. C., April 12, 1902. Hon. M. C. Galluchet, Manning, S. C.

Please announce through the Clarendon papers I will speak at Manning Friday, April 25th, 11 o'clock. B. R. Tillman.

It is needless to say that the senator will draw a large crowd. This used to be one of his strongest counties and he has not been here since probably '92 or '94, and notwithstanding the fact that McLaughlin has been very strongly advocated here, this correspondent is of the opinion that a large majority of the people of Clarendon are with Tillman in his recent political belligerencies. It is understood that the senator comes at the request of a numerous signed petition which has been forwarded to him and asking him to come into the county and make an address. Up to this time there has been very little active politics, but the speech of Senator Tillman will probably be the opening gun.

THE FISH-CULTURAL STATION

Senator Tillman's Bill Passes the Senate. The station will probably be near Charleston.

[Special to News and Courier.]

Washington April 14.—Senator Tillman's bill, providing for the establishment of a fish-cultural station in South Carolina, passed the Senate today without opposition. An appropriation of \$25,000 is carried in the bill to provide for the purchase of a site, construction of buildings and ponds and equipment at some suitable point to be selected by the United States commissioner of fish and fisheries. Commissioner Bowers has not yet determined where the station should be located, as many things have to be taken into consideration, as sufficient water supply, lay of land, a view to construction of ponds and buildings, and nearness to railroad or town where supplies may be purchased. It is understood that the station will be located somewhere in the neighborhood of Charleston.

Will pour the sweetest disposition and transform the most even-tempered, lovable nature into a cross-grained and irritable individual.

If impatience or fault-finding are ever excusable it is when the body is tortured by an eating and painful sore. It is truly disconcerting to find after months of diligent and faithful use of external remedies that the place remains as defiant, angry and offensive as ever. Every chronic sore, no matter on what part of the body it comes, is an evidence of some previous constitutional or organic trouble, and that the drugs of these diseases remain in the system; or, it may be that some long hidden poison—perhaps Cancer—has come to the surface and begun its destructive work.

The blood must be purified before the sore will fill up with healthy flesh and the skin regains its natural color. It is through the circulation that the fluids are carried to the sore or ulcer and irritated and inflamed. S. S. S. will purify and invigorate the stagnant blood when all sediment and other hurtful materials are washed out, fresh rich blood is carried to the diseased parts, new tissues form, and the decaying flesh begins to have a healthy and natural look; the discharge ceases and the sore heals.

Several years ago, my wife had a severe sore leg and was treated by the best physicians but received no benefit. Our druggist advised her to try S. S. S. which she did. Fourteen bottles cured her and she has been well ever since.

SENATOR MCLAURIN SPEAKS ON THE EXCLUSION BILL

Fears Measure Now Under Discussion Will Kill Our Trade With Chinese People.

Washington, April 14.—The Chinese exclusion bill occupied the attention of the senate throughout the day, Senators Foraker and McLaughlin of South Carolina making extended speeches in opposition.

Mr. McLaughlin in his remarks said it was inconceivable that any honorable nation, least of all the United States, should surrender its integrity by deliberately adopting policies and enacting laws in violation of its own sworn compact, and treaty with any other power, and that too, during a period of profound peace by provoking cause from the other nation. The pending senate bill, he declared, was calculated by its restrictive action and inimicable spirit to kill our trade with China. This was a considerable item of vital importance to South Carolina, with its vast cotton production and the growing shipments of cotton goods to China.

"Is it fair to the people of the south," asked Senator McLaughlin, "just as they were beginning to prosper in manufacturing and commercial enterprises, after long years of trouble and privation, to tear down and crush their new enterprises on the assumption that such a ruinous policy is necessary in order to keep out the Chinese when, in points of fact it is not at all necessary and the Chinese are being kept out by the existing law? That is the plain business proposition at the basis of the whole question."

Mr. McLaughlin said the effects of a shut down in the China's trade and the consequent collapse of southern cotton manufacturing would be most severe on the south. It would glut the home market and close the mills. The mill owners and the operatives would suffer. In South Carolina some 60,000 operatives would be idle while the same results would occur in North Carolina, Georgia, Alabama and all the States where cotton is grown or cotton goods are manufactured.

A PECULIAR CASE.

Novel Result of a Dispensary Election in Greenwood County.

[The State, 15th.]

Before Judge Gary at Chambers here yesterday was argued a rather peculiar case. It was entitled A. J. Davis et al., vs. C. L. Kennedy et al., and involved an issue arising from the election held in the town of Troy, in Greenwood county for a dispensary. The vote stood 10 to 10. One of these was withdrawn on the "no dispensary" side because he was not a qualified voter. Those who wanted a dispensary then came before Judge Gary for an injunction to restrain the establishment of a dispensary at Troy. They were represented by Messrs. Welch & McGhee and Messrs. Greer and Ellis Graydon appeared on the dispensary side. After hearing the argument Judge Gary granted the injunction.

QUESTION OF TAXATION.

Paraphernalia of Masonic Lodges Assessed in Marion.

An interesting question in the matter of taxation has arisen through the action of the county board of assessors of Marion county. That board has assessed the paraphernalia and fixtures of Masonic and other lodges in that county. Such property has not heretofore been taxed, but the law does not seem to be plain as to whether they are exempt or not. Likely an interpretation of the law will be had soon. The law exempts public charitable organizations from taxation; but whether Masons and such like orders can be considered as coming under that classification is the question.

THREE WILL QUIT THE DELEGATION.

Robert Talbot and Latimer Won't Run Again for Congress—Two Appear to Withdraw of Toga and One Will Enter Governorial Race.

[Special to Charleston Post.]

Washington, April 14.—Hon. Robert B. Scarborough of South Carolina, has returned to Washington, having been to his home for a brief visit. Mr. Scarborough, it is stated, will get a renomination for Congress, which is pleasing to his friends in this city, as he has been a most popular member of the House of Representatives, and one of the most zealous workers in the delegation. Mr. Scarborough is making his headquarters at the Metropolitan Hotel, which is a popular resort for Southern gentlemen.

It is said in South Carolina circles that with the probable exceptions of Congressmen Talbot, Latimer and Elliott that all of the present delegation will be renominated for the next Congress.

Friends of Representative Lever are very confident of his renomination and some of them go so far as to state that he will have very little, if any, opposition. The same is true of Representative Finley.

Representative Elliott of South Carolina, has returned to Washington from South Carolina, where he went early this week to be present at the exercises incident to President's Day at the Exposition.

ALL WOMEN

Wine of Cardui is the guardian of a woman's health and happiness from youth to old age. It helps her safely into womanhood. It sustains her during the trials of pregnancy, childbirth and motherhood, making labor easy and preventing flooding and miscarriage. It gently leads her through the dangerous period known as the change of life.

WINE OF CARDUI

cures leucorrhea, falling of the womb, and menstrual irregularity in every form. It is valuable in every trying period of a woman's life. It reinforces the nervous system, acts directly on the genital organs and is the finest tonic for women known. Ask your druggist for a \$1.00 bottle of Wine of Cardui.

Batesville, Ala., July 11, 1900. I am using Wine of Cardui and Theodor's Black-Draught and I feel like a different woman already. Several ladies here keep the medicines in their homes all the time. I have three girls and they are using it with me. Mrs. KATE BROWDER.
